Stock research and next-action support

PRODUCT PROPOSAL

Help team members get up to speed on stocks

Portfolio context, market prices and SEC filing summaries support the review of recommended next actions.

Internal team product / Proposed pilot

The team’s research task

Understand the firm’s exposure

Start with the position, cost basis and portfolio context.

Get current on the company

Review the market snapshot and relevant filing information.

Prepare a reasoned next step

Use the suggested action and supporting evidence to structure a team discussion.

Portfolio context

Start with what the firm owns

The portfolio view brings holdings, market value and unrealized gains or losses into one view.

A selected holding gives the stock review a clear starting point.

Sample Growth & Income Portfolio — As of Oct 11, 2026

Total value	Cash	Unrealized gain/loss
$2,339,915.89	$25,000.00	▲ +$1,565,658.88 (+208.96%)

SEC filing summaries

Get oriented before reading deeper

A filing summary combines a narrative overview with financial highlights.

The EDGAR link gives the team a route back to the original filing.

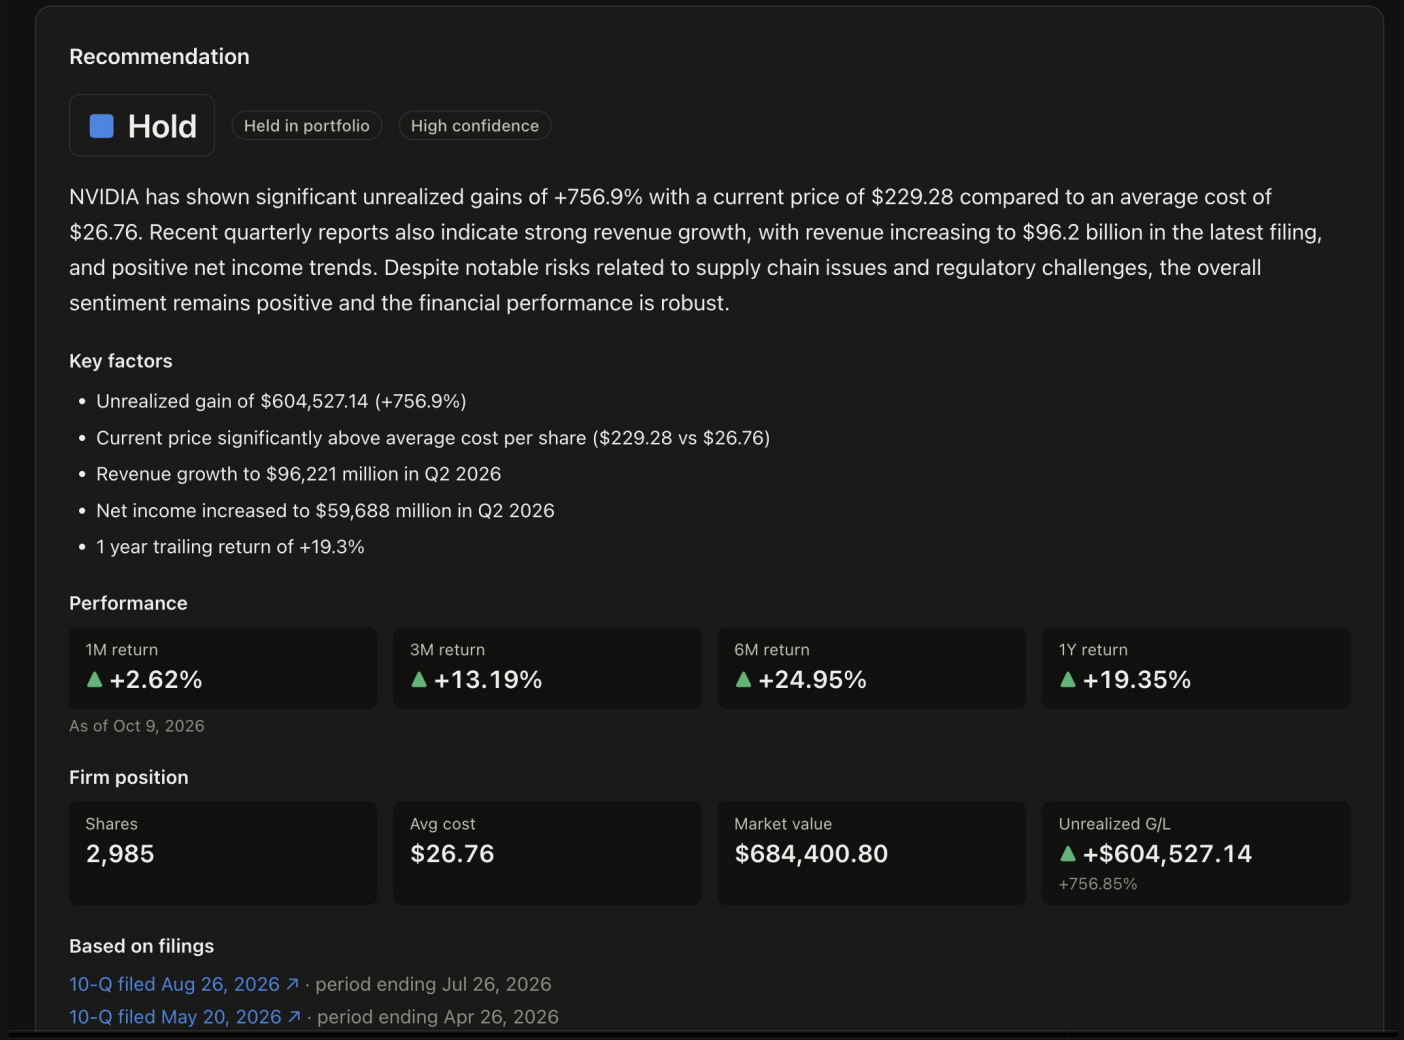

Product example. Figures shown are from the supplied interface.

Recommended next action

Review the action and its rationale

The example recommends Hold and explains the factors behind it.

Performance, the firm’s position and filing references provide context for team review.
